LONGEVITY BLEND 1100 mg / 3 mL

Cat. No:	ONX-LONG-1100-PEN
CAS No:	Glutathione: 70-18-8 NAD+: 53-84-9 Resveratrol: 501-36-0
PubChem CID	Glutathione: 124886 NAD+: 5892 Resveratrol: 445154
Chemical Name:	Reduced L-Glutathione + β-Nicotinamide Adenine Dinucleotide (NAD+) + Resveratrol
MG:	Glutathione: 500 mg NAD+: 100 mg Resveratrol: 500 mg Total: 1100 mg / 3 mL

PHYSICAL AND CHEMICAL PROPERTIES

Molecular Formula:	Glutathione: $C_{10}H_{17}N_3O_6S$ NAD+: $C_{21}H_{27}N_7O_{14}P_2$ Resveratrol: $C_{14}H_{12}O_3$
Molecular Weight:	Glutathione: 307.33 g/mol NAD+: 663.4 g/mol Resveratrol: 228.24 g/mol
Storage:	According to finished-product manufacturer specification. Protect from excessive light and heat.
Chemical Structure:	Glutathione: H-γ-Glu-Cys-Gly-OH NAD+: β-Nicotinamide Adenine Dinucleotide, oxidized form Resveratrol: 3,4′,5-Trihydroxy-trans-stilbene

Caution: Product has not been fully validated for medical applications. For research use only.

ANALYTICAL DATA

Test Items	Specifications	Results
Appearance	Finished liquid solution — specification to be confirmed	Batch result required
Purity (HPLC):	≥99.0% for each active raw material	Batch result required
Identity / Component Content	Glutathione 500 mg; NAD+ 100 mg; Resveratrol 500 mg / 3 mL	Batch result required

Conclusion: Final batch release is subject to confirmation of analytical results against the stated specifications.

Caution: Product has not been fully validated for medical applications. For research use only.
